My name is Costel Nicolae and I am a full stack web developer with a passion for metrics and creativity.

Consistently receive high user experience scores for all web development projects. One of my strongest assets is a diversity of real world experience working on all kinds of projects with all kinds of clients.

I see one of my major strengths being my adaptability. I am able to jump easily from being a designer, to a coder, to software and hardware technician, to decision maker. This adaptability can also be seen in my design work where I am able handle any task I'm given, be it web, multimedia, branding, or print.

To stick around in this industry you have to be a quick learner, and I am constantly updating my skill set with new strategies and technologies.

EXPERIENCE

From 2008 until present.
FREELACE Web designer, web developer and graphic designer.

During this time I have worked with different clients using different frameworks such as Worpress, Shopify, Magento 2 and simple HTML / CSS / JavaScript. Also, for many of them, I created logos, graphics and corporate literature, and I have installed hosting servers.

Please view some of my last clients website addresses:

FURTHER EDUCATION

I find the internet, with its vast library of information, to be one of the greatest places to research, study and expand my skill set. However since finishing high school, I have completed the following courses at the University of Hertfordshire.

2013 - Proffesional Development and Employability
2013 - Visual Skills 2A - IDI

Thanks for taking the time to look over my curriculum vitae. If you haven't already done so then please visit my portfolio at: www.digitalcrafts.co.uk
